Deep Learning Practical Assignment 3B

Name - Rahane Vedant Ashutosh / Roll No. - 4235 / Batch - B6

Importing Dataset & Libraries

```
[120]: import pandas as pd
       import numpy as np
       import matplotlib.pyplot as plt
[121]: class_names=['T-shirt/top', 'Trouser', 'Pullover', 'Dress', 'Coat', 'Sandal', |
         ⇔'Shirt', 'Sneaker', 'Bag', 'Ankleboot']
[122]: df1 = pd.read_csv(r'D:\DL Practical\fashion-mnist_train.csv')
[123]: df1
[123]:
               label pixel1 pixel2 pixel3 pixel4 pixel5
                                                                   pixel6
                                                                            pixel7
                                                                                     pixel8 \
                    2
                            0
                                     0
                                              0
                                                                0
                                                                                  0
                   9
                                                       0
                                                                0
                                                                         0
       1
                             0
                                      0
